TERMS OF SALE

- 1) A 10% buyers charge will be added to the hammer price of each lot purchased.
- 2) All bids are per lot as numbered in this catalog.
- 3) We reserve the right to withdraw any lot prior to sale.
- 4) All successful bidders shall be billed for postage, handling and insurance.
- 5) NASCA reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
- 6) A NASCA auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of NASCA's failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
- 8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
- 10) All bids must be in whole dollar amounts; this includes percentage increases.
- 11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
- 12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
- 13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
- 14) Title does not pass until payment in full is received. NASCA reserves the right to await clearance of any check before making delivery.
- 15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by NASCA shall be borne by the defendant. The signer of a NASCA bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as NASCA alone shall elect. The participant in a NASCA auction also assumes both corporate and personal liability for unpaid auction bills.
- 16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 17) NASCA may reopen the bidding on a lot under the following circumstances: 1) NASCA has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
- 18) In the event of a dispute, the auctioneer's decision is final.

GUARANTEES AND RIGHTS OF RECOVERY

- 19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. NASCA reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
- 21) All material in this catalog is guaranteed to be genuine unless otherwise described.
- 22) No lots may be returned by floor bidders except for non-authenticity.
- 23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify NASCA of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 25) In the event of unsuccessful litigation the plaintiff shall pay NASCA's legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
- 26) The same protections applicable to NASCA apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 27) NASCA assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 28) All accounts are payable to NASCA in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by NASCA for auction sales, catalogs or other monies due to NASCA.
- 29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

CONDITION TERMINOLOGY FOR PAPER

- Gem Unc.** (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
- Choice Unc.** (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
- Unc.** (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
- Choice AU** (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
- AU** (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
- EF** (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
- VF** (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
- F** (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
- VG** (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.
- Good** (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
- Fair** - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
- Poor** - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
- Abt** (before a grade) - A shade below the grade it preceeds.
- Plus or +** (following a grade) - A shade better than the grade.
- VF-EF** (hyphen between grades) - The grade is about halfway between the two grades shown.
- VF/Good** (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

5000 **William Frederick Cody (1846-1917).** frontiersman and entertainer, better known as "Buffalo Bill". Born in Scott County Iowa, on February 26, 1846, Cody had little education and went to work at the age of twelve. By the outbreak of the Civil War, he had been by turns a horse wrangler, a mounted messenger for a freight company, an unsuccessful prospector, and a pony-express rider. Cody rode with the antislavery guerrillas, the Jayhawkers, for a time before enlisting in 1863 as a scout with the 9th Kansas Cavalry. Later he was a scout with the Union army operating in Tennessee and Missouri. Soon after the war he was employed by a food company which supplied meat to the Kansas Pacific RR construction camps, and by his remarkable exploits with the rifle killed more than 4,250 buffalo, by his own count, thus earning the nickname which he was ever afterward known. For the next four years he was again with the army, serving as chief scout of the 5th Cavalry in various Indian campaigns; during this time, in 1869, he met the writer E. Z. C. Judson - "Ned Buntline" - who seeing in him the makings of a popular hero, dubbed him "Buffalo Bill" and proceeded to feature him in a series of highly fictionalized and sensational dime novels. In 1872, Judson wrote a play, *Scouts of the Prairies*, (or *Plains*), which successfully toured Eastern cities with Cody, under his new name. In 1876, Cody returned briefly to the 5th Cavalry and in July of that year killed and scalped Yellow Hand, a Cheyenne leader, in a famous duel. He soon returned to the stage and until 1883 divided his time between show business and his Nebraska ranch. In 1883 he organized the highly successful Buffalo Bill's Wild West Show and played to audiences in the East, in Great Britain, and in Continental Europe. In the 1890's Cody received a large land grant from the State of Wyoming, there the city of Cody was built.

Jay Gould (1836-1892) was one of America's most colorful financiers. At the start of the Civil War, he became involved in a series of railroad stock manipulations. Associating himself with James Fisk and Daniel Drew, he struggled with Cornelius Vanderbilt for control of the Erie RR. Gould also conspired with Fisk in an attempt to corner the gold market thus causing the Panic of Black Friday on September 24, 1869. By 1886, Gould was in virtual control of the New York City elevated railways, and the Western Union Telegraph Company. He left a vast fortune to his son George Jay Gould.

Rockefeller as president, **H. W. Flagler** as secretary,
 and **J. A. Bostwick** as treasurer. (\$3200-Up)

In 1888, a Federal Committee on Manufactures investigating the
 Standard Oil Trust concluded the following: "...the Standard Oil
 Trust agreement was a slippery device for evading responsi-
 bility." Although they felt certain that refined oil prices were
 being fixed, the committee was powerless to pursue punitive
 action against the trustees who swore "they had nothing to do
 with the business operations of the separate concerns. They sim-
 ply held the stocks of the various corporations, exercised their
 rights as stockholders, received and distributed dividends." In
 1892, however, the trust was ordered to liquidate.

John D. Rockefeller (1839-1937), American oil magnate who
 became the dominant figure in the oil industry until his retire-
 ment in 1911. He organized the Standard Oil Co. and gained
 monopoly of oil business.

Henry Morrison Flagler (1830-1913), American oil magnate
 associated with J. D. Rockefeller, organized the Florida East
 Coast Railway (1886), and built great hotel resorts in Miami

The town sought to promote the growth of the Memphis, Holly Springs, Okolona, and Selma RR, of which no mention can be found. The bond, No. 2270, is payable to Thomas Radcliff, a merchant and planter who died in 1806. While active early in the Revolution, Radcliff collaborated with the British from 1780 (after the fall of Charleston) until 1783 when they left. For this indiscretion he was amerced 12% of his estate. That did not prevent him from subsequently sitting in the South Carolina legislatures during the periods (1791, 1796-99).

Among his other activities, Radcliff served on several boards and committees; he was active in the church, the Charleston Library Society, Commissioner for stamping and issuing currency (he signed the April 10, 1778 issue), Commissioner for Tobacco Inspection (1798-1802), and Commissioner for the Charleston Dispensary.

His home, started in 1800 and finished in 1804, is now the front end of the C.G. Memminger Charleston High School.

The bond is signed by Joseph Nourse, (1754-1841) Register of the U.S. Treasury 1779-1829 when he was canned by Jackson for promiscuously borrowing public funds. He had two homes in Washington; one on "Q" Street (still standing), and a second home, now the site of the St. Albans Parish Church.

The Transfer form is of the first importance. At the top, the transfer order is addressed to John Neufville (1727-1804), a South Carolina merchant, slaveholder and planter who signed South Carolina money (the June 1, 1775 and April 10, 1778 issues), and who was the U.S. loan agent in South Carolina. Neufville was captured by the British, imprisoned in St. Augustine and lost most of his fortune. His US Commissioner job was probably a means of helping him out.

The Transfer order, at the lower left is signed by Oliver Wolcott, (1760-1833), Connecticut Comptroller (1789-89), U.S. Comptroller (1791-5), U.S. Secretary of the Treasury (1795-1800), founder and president of the Bank of America in N.Y.C.; Governor of Connecticut (1817-27).

To the right of that is the POC signature of "the Bastard brat of a Washer woman and a Scotch Pedlar", Alexander Hamilton (1757-1804), soldier, Constitutional Convention attendee, writer of the Federalist Papers, US Secretary of Treasury (1789-1795), founder of the **NY Post**, and the Bank of New York. He was killed by Aaron Burr in a duel.

The transfer form is signed by Joseph Nourse at left.

- 1163 **BANK OF THE UNITED STATES (PA)** 1837. **£250**. No. 1508. Beautifully engraved building, Adams, Franklin, and four others. "Paid" across face in bold hand, with ink corrosion holes. DTL. Signed by **Nicholas Biddle** as president. (**\$300-Up**) **450**

The Bank of the United States was a quasi-public institution, partially owned by the U. S. government. The farmers, workingmen, and entrepreneurs became disenchanted with the bank, blaming it for every downturn in the economy. President Andrew Jackson was vigorously opposed to the bank's policies that he led a fight against the renewal of the bank's federal charter which expired in 1836.

Nicholas Biddle (1786-1844) was an American financier who headed the Bank of the U.S. since 1822. Under Biddle, the bank helped maintain a stable currency and discouraged inflation. When renewal of the federal charter was refused, he secured a state charter, and the bank then became "The Bank of the United States of Pennsylvania".

He was a signally unfortunate leader, being defeated by the Texas at San Jacinto (1836), the French at Vera Cruz (1838) where he lost a leg and again by the Americans (1846-7). In 1866 he tried to float a \$750,000 loan (1500 bonds) pledging his confiscated Mexican properties with the view of effecting a comeback. Only \$250,000 of these bonds were sold and most of the proceeds were embezzled by his agents. Nearly blind and poverty-stricken, the aged adventurer was allowed in 1874 to return to Mexico, where he died two years later.

BRADBURY, WILKINSON & CO. SPECIMENS

The following lots are all specimen banknote issues produced by the firm of Bradbury, Wilkinson & Company, located in New Malden, Surrey, England. The majority of the notes are from the 1950's and early 1960's. There are a few earlier issues; these being distinguished with a round "SPECIMEN" overstamp with the company name imprint. They are indeed some of the finest engraved notes of the period and demonstrate their counterfeit detection devices quite effectively. The specimen notes were not necessarily printed in the issued note color. Most are in different tints as described.

All of the notes have been over stamped in red "SPECIMEN" on both sides in some form; in a few cases in two or more different manners. The majority of the notes have also been hole punch cancelled (POC) and unless mentioned otherwise should be considered POC. These specimens were all removed from official company sample books with lightly glued on stubs. The stubs have been trimmed down and are removable with proper soaking and drying procedures. The notes all grade **Uncirculated** unless otherwise noted in the lot descriptions.

2198 **\$5. Fr.282.** 1923. No.A2927538B. **Choice AU.** **(Photo)** **(\$500-Up)**
The face would cause this note to pass as Unc. However, we will note a light center fold visible only on close examination of the back.

2199 **\$10. Fr.289.** 1880. No.B6139127. **Gem CU.** **(Photo)** **(\$3000-Up)**

A perfect type note.

2201 **\$20. Fr.311.** 1880. No.B2619961. **Extremely Fine.** **(Photo)** **(\$1300-Up)**

Everybody will be after this note, which has been lightly quarterfolded, vertically. There is some scattered edge soiling on the back. Even with aging on the face, this note is more than easy on the eye!

2202 **\$20. Fr.322.** 1891. No.H16053629. **VG-Fine**, there is some abraiding in the central vignette and moderate teller smudges at both ends. **(\$140-Up)**

A Rare Error

2206 **\$1. Fr.350.** 1891. No.B12067279. **EF, plus.** **(Photo)** **★(\$300-Up)**
This note never received its seal! A small bit of paper is missing from 2 spots on the reverse and a bit of residue glue is evident at a 3rd spot from the note having been mounted, but this is an honest-to-goodness neat, rare error. This is confirmed by the impression of the seal in its proper place, where uninked or blocked by a piece of paper, it left no ink impression.

2207 **\$1. Fr.351.** 1891. No.B22319542. **Gem CU**, well centered. **(Photo)** **(\$450-Up)**

2208 **\$1. Fr.351.** 1891. No.B52866443. **Choice CU.** **(Photo)** **(\$350-Up)**
There is a light discoloration on the obverse, which keeps this note from a higher grade.

2209 **\$1. Fr.352.** 1891. No.B52866445. **Gem CU.** **(Photo)** **(\$450-Up)**
There is a tiny ink smudge to the right of Stanton's portrait.

The note is quarterfolded both ways.

2211 **\$2. Fr.357.** 1891. No.B8363229. **Choice CU**, centered a bit low, but still a superior note. **(Photo)** **(\$500-Up)**

2213 **\$5. Fr.363.** 1891. No.B7654288. **Gem CU**, a pristine note centered just a bit high. **(Photo)** **(\$725-Up)**

2214 **\$5. Fr.363.** No.B12727609. **Choice Unc.** The corner tips are a bit soft. **(Photo)** **(\$725-Up)**

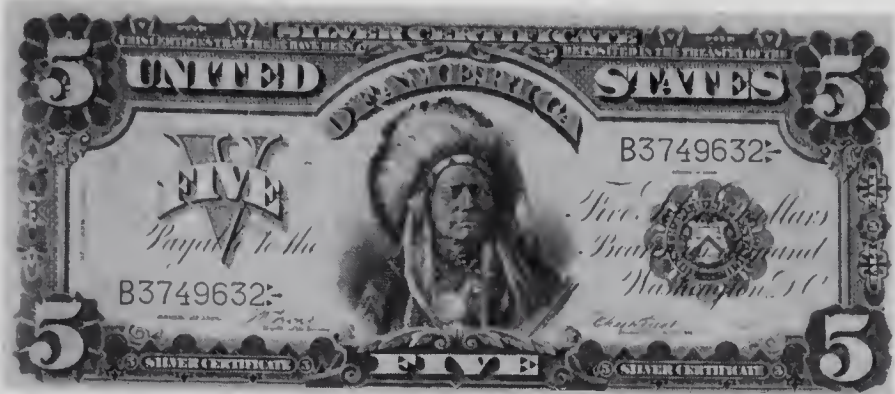

2215 **\$5. Fr.364.** 1891. No.B15604320. **Abt Very Fine.** **(\$130-Up)**
There are seven or so folds and at some point it appears that the note was crumpled up and then reflatened.

2216 **\$10. Fr.366.** 1890. No.A2889752. **Extra Fine.** **(Photo)** **(\$500-Up)**
This note has been quarterfolded and has soiling on the back, along the center fold.

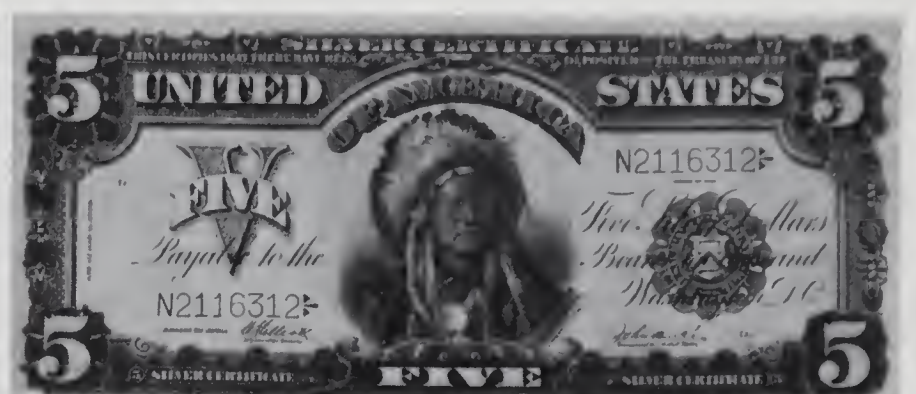

2217 **\$10. Fr.367.** 1890. No.A2981941. **EF**, a nice type note with only light quarterfolds and teller handling at right. **(Photo)** **(\$450-Up)**

There are 26 notes accompanied by the original envelope they were received in. The set cost \$6.65 including 2¢ for stationary expenses. The rest of the bill represented the face value (\$6.63) of the notes. Presumably, the item was not posted as it is not stamped. Apparently the set has been kept together as it was received until the present day or for more than 120 years. The notes presented here were produced at the latest by early 1867. An extra ordinary item!

CALIFORNIA

Extraordinary Private Coinage Issuer Part Sheet.

3011 St. [San] Francisco. MINERS BANK OF SAVINGS OF ALTA CALIFORNIA. \$1/25¢B - 25¢C/25¢A - 25¢B/75¢. Fine, the right borders of the right 25¢ notes are trimmed. ★(\$4000-Up)

This Bank was set up by Stephen A. Wright and Samuel Haight (the Haight-Asbury section is named after him). Sending to Albany, New York, they ordered a sheet of eight notes, a dollar bill, a 75¢ Note, two 50¢ pieces and four 25¢ bills. The shortage of silver and the absence of a U.S. mint (only on assay office then existed) meant that coins of one dollar, or lower were rare and their unavailability greatly discommoded trade. The notes reached California but immediately ran into vigorous resistance. Californians had a strong suspicion and dislike for paper money of any kind. Moreover, there was plenty of bullion available. The legislature, backing public sentiment (people refused to receive or circulate such bills) passed a law prohibiting the issue of paper money by private persons. In consequence, very few such notes were actually signed and numbered. The Miner's Bank later issued a \$10 coin, but its debased character led to its condemnation and rejection by the Assay Office and the failure of efforts to circulate it.

In early 1864, the State of Georgia got into a quandry. The Confederate were going to pass a law compelling the funding of redundant Treasury notes into bonds. Georgia, however, had provided that its notes could not be funded until 6 months after peace, and only if the state failed to pay off such notes. How could the redundant state currency be reduced without violating the State's pledges or incurring heavy interest costs? The solution found was typically peculiar. To understand what and why it was done, it is necessary to review the early state issues.

By the Act of December 5, 1861 (notes dated "January 15, 1862") the legislature had authorized \$2.5 million of notes fundable into 8% bonds. The next year, \$5 million was authorized by the Act of December 12, 1862 (notes dated "February 1, 1863"). These notes were only fundable in 6% bonds. The state solution was to order the issue of \$5000, \$10000 and \$20000 non-interest certificates in exchange for lower denomination notes. Of the total of \$1,395,000 funded into such certificates, \$975,000 was for the 8% certificates and \$420,000 for the 6% certificates. Thus instead of there being only three notes, there are six, one of each denomination for each of two acts. A total of 3 \$20,000 notes and 3 \$10,000 were picked up in a small hoard and another \$10,000 was discovered by the late Charles J. Affleck. Later, a \$5,000 was found and sold together with the \$10,000 in 1979. Another \$5,000 other than that here is known but has not been inspected to see which of the two varieties it belongs to. The quantities believed to have been issued, mostly to a contractor supplying the state with uniforms, is as follows: 8% bonds; \$20,000 - 30 Pcs; \$10,000 - 30 Pcs; \$5,000 - 15 Pcs. For 6% bonds; \$20,000, \$10,000, \$5,000 12 pieces of each. Since there are only 11 known surviving pieces of these issued, 8 closely held, two from the Criswell Collection. (in private hands) and the present piece, out of the 6 known varieties, the present piece is the only one available for the present; indeed, it is one of only two sold or disposed of in four years! The last piece a \$20,000, brought \$2,970 in November 1988.

- 3742 **DANIEL ROBINSON. \$19.20. (M-1). One Hand Cart Share. 6/6/60. VF**, fold splits, mounting remnant at the top left. (Photo)

These promissory notes were part of a 10 hand cart movement of Mormons from Iowa City (where the railroad ended) to Salt Lake City, 1300 miles away. Between 1856 and 1860, ten companies around the plains totalling 2,962 people of whom 250 probably did not make it. Five groups left in 1856; two in 1857, one in 1859 and two in 1860 (of which Robinson was a part).

Florence, Nebraska was where the handcart people picked up their supplies for their 1500 mile trek through essentially uninhabited country. It was the last civilized spot where essential provisions could be secured. This became unnecessary after 1869 when the railroad reached Salt Lake City.

George Q. Cannon, to whom the note was made payable was a British born man in charge of the migration. He operated the Perpetual Emigration Fund to help the new settlers. Later, he became one of the Apostles and served in the U.S. Congress as a Utah delegate 1872-82. [4]

In 1880 the Mutual Union Telegraph Company was chartered to run a line from Boston to Washington via New York and key cities for the convenience of the bankers. The capital stock consisted of \$800,000 with a right to increase it to 1.2 million. In 1881, it was decided to turn this company into a nationwide system with 13,000 miles of wire. To finance this expansion the stock was increased to \$10 million (100,000 vs 6,000 shares of \$100 each) and \$5 million of the first mortgage bonds were authorized. At the same time President John G. Moore and Thomas C. Purdy (also partners in John G. Moore & Co., a construction firm) organized the Union Telegraph Construction Company, which was hired to do the building at an estimated cost of 2.5 - 3.5 million. The 97,000 new shares, together with the bonds, were delivered to George William Bellou, a director, whose firm was Mutual Union's banker. Other directors of the firm, including George F. Baker, First National Bank of New York, and George H. Holt, had an interest in Moore's construction company and its new subsidiary. It was their intention to sell enough stock to the public to effect the building of the expanded system and then sell off for their own accounts the residue of the securities without the company receiving any equivalent value. In short, about 11.5 million in watered securities were to be unloaded on the unsuspecting public for the profit of a few insiders. During 1881, especially after June, when the new Mutual Union securities were being sold, Jay Gould, who had taken over the Western Union Telegraph Company, and who wanted to secure a monopoly in the telegraph business, bought 29,000 shares of Mutual Union. At the same time, he induced Russell Sage to join him on the board of directors with Harris C. Fahnestock, a prominent New Jersey banker and railroad director.

In late 1881, getting wind of the insider's plan, Gould induced H.H. Cameron of Providence, Rhode Island to file suit as an original shareholder demanding an accounting for the sales records of the stocks and bonds. He also asked the New York Attorney General to launch a suit to forfeit the Mutual Union's charter, with a view to removing the inside directors. Those directors quickly published a contract claiming pay for themselves of 13.5 million. The courts then ask for further records and all of the books on the construction costs. When the defendants found that Gould was behind Cameron, knowing Gould's proven capacity to manipulate the New York Courts, they found they could not get the suit dismissed. They removed the desired records to Jersey City, putting them beyond the reach of the New York courts. Gould, learning of their plans, and helped by a local police officer who performed detective duties for him pursued the papers to New Jersey, where, in a signed series of two complaints he sought an injunction to seize the papers and prevent their shipment to Chicago, where they were to be destroyed. Ultimately, the insiders were bought out and the company merged with Western Union.

A nice group of papers illustrating the shoddy financial practices of that era. [37]
